The college classrooms are airy and well lighted and hardly need any artificial Lighting. The building lay-out facilitates optimum use of day light and proper ventilation. The college lawns and playground of the college is full of floral and faunal diversity. The Botanical Garden has an aquarium that houses floral and faunal species. The institution is a 'Tobacco Free Zone.' Signage proclaiming the same has been displayed across the campus to ensure awareness.

Air quality is maintained as majority of staff and students commute by college buses or public transport. The institution is situated in lush green environment in rural region. No wood is burnt in cooking practice. Burning of dried leaves and wooden twigs are not allowed in the campus.

Divyang friendly barrier free environment for disabled is ensured. Ramps with Handrails for easy access to classrooms, tactile path, wheelchair, signage and lights have been provided.

- Pedestrian friendly roads are available in the institution.
- Fire extinguishers have been installed as safety measures.

- Maintenance of building and lawns is done by committees like Building committee, Infrastructure committee, Physical Audit committee, Gardening Club.
- In-house facility of plumber and electrician is available.
- Separate bins are used to manage segregated waste.
- On campus and off campus parking facility is provided. Organic farming, anaerobic and aerobic composting of leaves has been initiated.
- Provision of acoustics in Guru Nanak Bhawan (Auditorium) checks noise pollution.
- Artificial bird nests have been installed.

### **III. Waste Management**

- Solid Waste Management: Solid waste is segregated as biodegradable and non-biodegradable. Separate bins are used for collection. Dry leaves are thrown into the composting pits and converted into manure.
- Non-biodegradable waste is segregated. Separate zone has been marked to collect it. It is taken away by the junk dealers.
- The college is a no plastic zone.

**Liquid waste Management:** The rain water collected on rooftops is so managed so as to water the lawns through pipes. The water in the tank opposite Canteen lawn is reused in the lawn. Ground water recharge system has been installed. Sprinkles and fountains are installed.

**Hazardous Waste Management:** Inventory of chemicals is prepared and stock Register is maintained to record usage of chemicals. Panjab University, Chandigarh curriculum prescribes negligible number of chemicals that are hazardous. Separate bins have been provided for the same in the laboratories.

**E-Waste Management:** E-Waste generated in the college is very less in quantity. The Cartridges of laser-printers are re-filled outside the college campus. The E-Waste in the form of redundant computers and accessories is being stored properly.

It was suggested that the computers and accessories should be sold for recycling or disposed off as per norms.

**Biomedical Waste Management:** The Panjab University Curriculum does not allow dissection of animals in practical work. The students and staff who need medical help are referred to Babe Ram Kaur

Charitable Hospital run by SGHU Hari Trust. There is a provision of incinerator outside the college campus; the ash is used as manure in the fields.

#### **IV. Water Management system is in place.**

Ground water recharge system has been installed. There is a proper maintenance of tanks and bunds. The tank in lawn opposite canteen is reused in the lawn through proper distribution system. Rain water from roof-tops is directed to lawns through water pipes. Staff and Students participate in Eco-friendly practices and sensitization Programmes.

Green initiatives are regularly undertaken by the staff and students. Plantation drives, landscaping and beautification of the campus is carried out. Activities related to environmental consciousness regarding stubble burning, water conservation plastic waste free campaign is conducted.

- Swachhta Hi Sewa is celebrated to inspire youth to contribute towards a cleaner and healthier environment. Community outreach through rallies and organization of awareness programs

on environmental issues is done. Sanitization and cleanliness as per standard operating procedure.

- Artificial bird nests are installed.
- Organic farming, anaerobic and aerobic composting of leaves has been initiated.
- Days of National and International importance related to environmental awareness like World Environment Day, World Water day and Red Ribbon Day.
- NSS Camp focuses on the theme “Sawachh Bharat & Meri Maati Mera Desh” was organized.

## **V. Energy efficiency of the institution**

- The Institution believes in "Energy Saved is Energy Produced". Wise appliance choices are made. Members of the staff have been deputed to check the wastage of electrical energy by ensuring that fans should not run in unoccupied laboratories and classrooms. Lights are switched off immediately when not required. Computers, Printers, copiers etc. which are not in use are closed down and disconnected at the end of day. Electronic gadgets and equipment are shut off during non-working hours.

All the office windows are covered by blinds or curtains to reduce heat conduction. In efforts to promote energy efficiency and sustainability, all air conditioning units across the campus have been set at 22° to 24°C. Split units and central ACs have been installed in the institution compatible to occupancy level.
